NETZRO Fills Board Position with Tyson Foods Former CTO

Danyel Bischof-Forsyth will help provide innovative technology solutions to divert food byproducts creating upcycled food ingredients

MINNEAPOLIS, Minn. (October 2023) – Danyel Bischof-Forsyth has accepted a board position with Twin Cities-based NETZRO, SBC. NETZRO, a national leader in sustainability by eliminating food waste and expanding the food supply chain. Bischof-Forsyth was the prior CTO at Tyson Foods, and as a board member will provide NETZRO leadership in the areas of technology optimization while advancing impact data innovation. NETZRO was among four national entrepreneurs chosen in July by Tyson Ventures, the venture capital at Tyson Foods Demo Day 2023.

Danyel expressed her excitement about joining NETZRO: “I am truly honored to be a part of NETZRO and its groundbreaking work in the field of food upcycling! Together we will redefine the way we approach food waste and shape the future of sustainability.”

“We have a critical role to play in eliminating food waste while responsibly producing food for a growing world and the NETZRO team is honored to have Danyel join the board. Danyel brings proven technology leadership and I look forward to working with her to build NETZRO’s impact data framework as well as our technology strategy,” said Sue Marshall, NETZRO’s founder and CEO.

About NETZRO, SBC

NETZRO (www.netzro.us) is a leading food upcycling technology company that safely captures and converts food byproducts into new upcycled ingredients at scale. The company’s technology has the potential to divert millions of tons of food waste per year into nutritionally dense ingredients to feed people. NETZRO is currently working with national food and beverage companies to bring its equipment to market. Established as a Minnesota public specific benefit corporation in 2019. Based in Minneapolis, Minn., the company is committed to Champion SDG 12.3, a global challenge dedicated to mobilizing action and accelerating progress toward achieving sustainable development by 2030.
